

If You Are Cast

If you have been cast for the play, you have just begun to work! The following tips will help you prepare for rehearsals, which will start soon.

- Immediately fill out all the forms in your Cast Member Packet and return timely items ASAP. Watch for deadlines. These are hard deadlines, and if you miss them you will not be able to submit these forms late;
- Your Vocal and Dance Coach will provide you with practice music. Learn it, and practice it EVERY DAY until you know it by heart;
- Your Director will provide you with a script. Read and reread it until you understand the plot, all the characters and their parts in the play. Study the script until you understand the relationships between the characters and the overall tone of the play;
- Keep up with all relevant meeting and rehearsal dates on the calendar in your packet. We recommend that you hang your calendar in a prominent place in your home so you and your student or parents can keep up with important dates; and
- Review the Rules of the House.
