

Options to Acting Form

Would you like to participate in the show but don't want to act? Maybe you auditioned and didn't get cast, but you still want to do something in the show.

We have Production Team positions available for students aged 12 to 17. Like the actors, you will need to show up for rehearsals (although on a lighter schedule) and while we do encourage your parents to serve as Parent Volunteers, it isn't required. As a member of the production team, you will be subject to the same rules and requirements as the actors, and if you miss rehearsals or are consistently late, you will be removed from the team.

You will need to fill out an application for participation and your parents also will need to sign and return all forms for participation just as if you were cast in the show.

Positions are available in the following areas. Choose no more than three that interest you:
